

AXMINSTER INSPIRATION

It simply doesn't get any better than a high quality woven Axminster carpet. Besides being beautiful and versatile, this quality is designed to last and adding sophistication & luxury to any design project or home.

Lano design team have created an inspirational collection of commercial Axminster designs suitable for various installations. The design styles vary from modern to traditional with a contemporary twist and all designs are coloured using our standard colour palette.

However, as these designs are purely conceptual, they can be modified to perfectly suit the client brief.

Design AD093400 – Contemporary floral pattern presented in stark colour contrast with textured background.

Design AD093401 – Large scale, linear geometric pattern with an interesting optical three-dimensional effect.

Design AD093402 – Random layout chevron pattern using a heavily distressed texture.

Design AD093403 - Large scale 'star-burst' effect motifs in bold colour contrast and textures.

ANY DESIGN & ANY COLOUR

WALL TO WALL - RUGS - RUNNERS

TOP TECHNOLOGY

- 4 m wide
- 3-ply yarn
