

## **Traviata**

Polyamide carpet, known for its durability, can be used in any room. One of the most important advantages is the fact that the carpet fibers can stand up to a lot of wear and tear. This makes the use of nylon carpeting especially practical in areas where there is a lot of foot traffic since the synthetic fibers hold their shape longer than many other types of fibers. As a result, the pile of the polyamide carpeting looks new and fresh for many more years than other carpeting selections.

## **TECHNICAL SPECIFICATIONS**

Secondary backing: SMB
Quality code: TRV
Manufacturing process: Tufted
Manufacturing process Tufted

(hospitality):

Pile composition: PA
Pile composition PA

(hospitality):

Fire behaviour: Bfl-S1 EN 1307 Classification: Cl 32
