

## Midori ens?

### Waarom ens??

We verminderen onze ecologische voetafdruk in elke fase van de levenscyclus.

#### Verantwoordelijke productie

- Gemaakt van gerecycleerde materialen
- Geproduceerd met groene stroom in een duurzame productieomgeving

#### Verantwoorde consumptie

- Uitmuntende levensduur
- Geen compromis op stijl en kwaliteit

#### Verantwoorde end-of-life

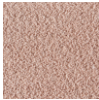

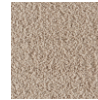

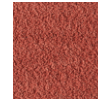

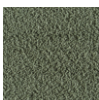

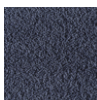

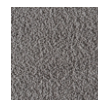

- Monomateriaal mét certificaat van Universiteit Gent
- Recyclebaar zonder extra behandeling

330 / Midori ens? / Abrikoos

## TECHNISCHE SPECIFICATIES

|                     |                  |
|---------------------|------------------|
| Rugtype:            | EF               |
| Kwaliteitscode:     | MDR              |
| Fabricagemethode:   | Tufted           |
| Pool Samenstelling: | Halcyon recycled |

|                                                                                     |                                                                                      |                                                                                       |                                                                                       |                                                                                       |
